

PROFILE (Dot Net Full Stack Developer)

Having 10 Years of experience in the development and implementation of applications. Experience in, C#, **SQL Server**, **Dot Net Core**, MVC, **Entity Framework**, **Web API**, Solid Principle, **AngularJs(2-18)**, **Angular Material**, ReactJs, Redux, **Priming**, **WebPack**, **Oauth2.0 login (with Jwt)**, **GitHub**, **SVN** for code repository.

SKILLS

Operating Systems	Windows 98/XP,7,8,10
Languages/Technologies	.Net Core, C#, Asp.net, MVC, Ajax, LINQ Entity Framework Core, Auth2.0 Login(JWT), Web API
Databases	SQL Server, Postgres
Development Platform (IDE)	Visual Studio 2012/13/15/19, TFS, SVN, GIT, Bit Bucket, Jira
Web Technologies	HTML, CSS, Angular 14, React JS, NGRX, Angular Material Design, Grunt, Gulp, JQuery, NodeJS, NPM, Bower, PrimeNg, React Js, Redux, Jasmin Karma, Protractor
Servers	IIS
Cloud Technology	Azure Search, Azure Functions, Web Apps, Blob storage, Active Directory, CICD, Dev Apps

EDUCATION

Year Of Passing	Degree / Certificate	Percentages
2007-2011	Batch from BPUT (Biju Pattnayak University of Technology), Odisha	62.9%
2005-2007	12 th from Barriada College, Odisha	47.2%
2005	10 th from R.K.C. High School, Odisha	75.6%

PROFESSIONAL EXPERIENCE

Organization	Designation/Band	Duration
Wipro Limited	Lead Engineer	4 th May 2022 – Till Now
Concentrix Technology Service	Lead Engineer	28 th April 2021 – 7 th Dec 2021
L&T Technology Services	Senior Developer	8 th Feb 2017 – 24 th April 2021
MU Software Solutions PVT Ltd	Lead Developer	1 st July 2015 - 27 th May 2016
Aardeesoft Solution PVT Ltd	Software Developer	17 th Dec 2013 - 31 st May 2015
XPRO Solutions PVT Ltd.	Software Developer	2 nd Mar 2012 - 28 th Nov 2013

CAREER HIGHLIGHTS

- Advanced knowledge on Web Technology Angular 18, NGRX, React Js, Redux, Angular Material Design, JavaScript Angular Js, JQuery, HTML, CSS, Bootstrap
- Microservices using CQRS pattern Knowledge and Implementation Using MediatR.
- Implementation of Rest Full services using Dot net Core, Web Api, Entity Framework, Linq, stored procedure
- Developing Web Application using Asp Dot Net, Ado dot net, Dev Express Controls, JQuery, Html, JavaScript and all.
- Extensive knowledge of SQL Database, Postgres SQL, Creating Database structure, writing stored procedure, function etc.
- Good knowledge on integration of 3rd party libraries and APIs into application.
- Writing unit test cases using NUnit, Jasmin Karma, Protractor, swagger
- Deployment of Dot net Web Api into azure web apps and deployment of Angular application to azure
- Basic knowledge on Micro Service Architecture over Monolithic Architecture using micro soft technology
- Basic knowledge on creating rest service using mean stack technology.
- Basic knowledge on Azure Dev Apps for CICD automation deployment.
- Handled a team of 5 members for project and reporting to client manage.
- Always ready to adapt a new technology and skills for project requirement.

PROJECTS

Project - 1 : AOS (Airport Operation Services)

Team size: 12

Technologies: Angular 17, PrimeNg, NPM, HTML, SQL Server, Web API, Entity Framework, SCSS, Web Pac, SVN, Azure

Description: This project helps to manage airport operation, resource management and generating the bills for the used resources by the airlines. Whenever any flight comes to the airport for arrival and departure, airlines have to create the flight turns. Once the flight arrives at the airport all the resource has to be allocated automatically like stand, gate, and runway. When the flight completes the turn's system will generate the bills for the used resource while in the Airport.

Role:

- Handled the team
- Understanding the requirement, development and project flow.
- Flight Plan module, Resource management.
- Billing and Invoice module.

Project - 2 : REACH/MOC Analysis Tool

Team size: 3

Technologies: Angular 12, Angular Material, NPM, HTML, SQL Server, Web API, Dot Net Core, Entity Framework, SCSS, Web Pac, SVN

Descriptions: The web-based REACH/MOC Analysis tool has been developed to identify and quantify Materials of Concern (MOC) in UTAS products. The application serves as a searchable database of MOC information (%w, MOC Name, CAS Number) for a Part and Assembly. The MOCs in a Part/Assembly can be evaluated against HS14722, REACH and IAEG AD-DSL requirements

Role:

- Participate in requirement analysis with the client
- Write clean, scalable code using .NET programming language,
- Assembly Analysis module, Assembly Analysis module.
- Updated complete UI design look and feel.
- Revise, update, refactor and debug the code.

Project - 3 : GA (General Aviation)

Team size: 3

Technologies: Angular6, NPM, HTML, SQL Server, Web API, Entity Framework, SCSS, Web Pack, Azure CDN, SVN, MSMQ

Description : Basically this project helps pilot to take slots in airport for their arrival and departure flight. The flight which is not in regular basis they can send a request to the airport for time slots. The airline has to make a request to the GA website with their flight details and timings. Once request will come, the admin people will verify the flight and approve. Once it is approved it will create an operational flight.

Roles: Understanding the requirement of clients and project flow. Airline request module, Admin Module, Authentication Module, Flight Management Module etc.

Project - 4 : Online Health Care (<https://arkaahealth.com>)

Team size: 5

Technologies: Angular JS, Angular Material, SQL Server, Web API, Entity Framework, Azure Blob -Storage, SCSS, Azure Search, Gulp, Azure CDN

Description : The Main aim of this project is to provide online consultation to patient. They can book there appointment online and can consultant with doctor through video, audio and offline chat or even they can take physical appointment with doctors. For every consultation perception will be generated then user will share his perception to lab and pharmacy for medicine and reports.

Roles: Handled the team. Understanding the requirement of clients and project flow. Patient profile, Doctor Profile, Book consultation, Azure Search for Doctor Search etc. Synch audio video calling for chat module, Application Hosting in Azure and CDN

Project - 5 : Vconnect (www.vconnect.com)

Team Size: 5

Technologies: C#, MVC4, SQL Server, and JQuery, HTML, CSS, TFS

Description: The Main aim of this project is to provide more business to the business owner. This deals with 900000 business of Nigeria. People come to this website for their local needs and search in Vconnect website, then Vconnect provides the list of business owner and Vconnect will send to that person of premium business owner phone number and to premium business owner of that person phone number. Also, Vconnect provides unlimited free SMS to registered users dally. This project has the facility of business owner dashboard to maintain their business and for normal users only user dashboard to maintain details and smsconnect for sending SMS.

Role: Requirement Gathering and Application Enhancement Design of Database, UI Design, Coding (SmsConnect Module)

Handled business dashboard module. Work with Google maps for displaying location and distance. Work with authentication module using Facebook login, Google plus login

Technologies: C#.Net, Asp.net, Web Services, SQL Server, JQuery and Ajax.

Description: This project is developed to give discount on products. We have discount coupon code they can use code when availing products. When a product is avail, we send coupon code to him when he went to that shop to purchase that products then he will get discount on that product.

Role: Coding, DB Design , Admin Dashboard Module

PERSONAL DETAILS

Father's name : Parama Nanda Mohanta
Mother's name : Basisakhimani Mohanta
Languages known : English, Hindi, Telugu, Odia
Hobbies : Surfing Internet, Listening to music, Shopping
Strengths : Self Confident& adoptable to any situation
Address : A-008,Manjeera Diamond Tower, Nallagandalla, Hyderabad,500046.

DECLARATION

I hereby declare that the above-mentioned information is correct up to my knowledge and I bear the responsibility for the correctness of the above-mentioned particulars.

Place: Hyderabad

Sincerely,
Krushna Chandra Mohanta
